

Our heartfelt appreciation goes out to all the STEM Ambassadors who generously contributed their time and expertise, significantly enhancing the success of this year's challenge. For the 25th consecutive year, STEMPOINT successfully delivered the Go Construct Knex Challenge in primary schools across Hertfordshire, Luton, Suffolk, Peterborough, and Essex. Over **315** challenges were held by a team of more than **80** dedicated STEM Ambassadors, positively impacting **8745** students in **163** schools.

Thanks to the generous sponsorship from Go Construct and MBDA, we have been able to keep costs low, making participation affordable for all schools.

The 3 expert judges studied each of the entries in detail and deliberated over the designs and construction of every class winner photograph received, and decided on the overall regional winners as:

 	 	 
1st Place St John's CofE VA Primary School, Lemsford	2nd Place Easton Primary School, Suffolk	3rd Place Ickleford Primary School, Ickleford
Callum & Finley	Chester & James	Harrison & Will

All of our winners will each receive a K'Nex Kit and certificate to take home and a trophy for the school cabinet.

**Would your school like to
take part in the 2027 Go
Construct K'Nex Challenge?**

**Please look out for the flyer
and registration link in
September!**
